Address EMCAP Capabilities

- **Expanded Medical Services**
- **Expanded Patient Triage**
- **EOC Incident Management**
- **Asset Mobilization & Organization**

Alternate Care Site Modules

VeriCor's Alternate Care Site (ACS) Modules provide a medical surgical level of care. Modules enable clients to choose system capabilities and build it incrementally.

ACS Modules available:
- **Examination**
- **Orthopedics**
- **Intravenous Therapy**
- **Respiratory Therapy**
- **Staff PPE**
- **Suction**
- **Wound Care**
  - *+ 20 more!*

VA Preparedness Benefits

EMCAP Capability: *Expanded Patient Treatment During Surge*
- Multi-functional (Patient Reception Area, FCC, NDMS, Mass Evacuation)
- Self-sustaining for 96 hours
- Scalable in increments of 25 beds
- Sustainable (SmartBook™ included)

Just add staff & pharmaceuticals!

Mobile Emergency Room Modules

From bumps and bruises to mass casualty incidents and trauma, VeriCor Response-Friendly™ Mobile Emergency Room (ER) Modules increase emergency room capacity where advanced levels of care are required.
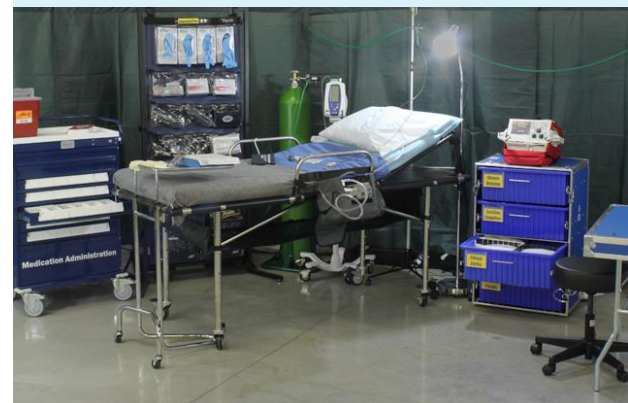

ER Modules available:
- **Airway Management**
- **Intravenous Therapy (Adv)**
- **Surgical**
- **Cardiac/Trauma Monitoring**
- **Medical Equipment**
- **Oxygen Supply**
- **Vital Signs Monitoring**
  - **+ 20 more!**

VA Preparedness Benefits

EMCAP Capability: *Expansion of Evaluation and Treatment Services*
- Facilitates advanced levels of care
- Self-sustaining for 96 hours
- Scalable in increments of 6 beds
- Deployable in shelters, buildings of opportunity, etc.
- Sustainable (SmartBook™ included)

2

Hospital Triage & Treatment System

Designed for hospitals to provide secondary triage and <u>definitive</u> treatment for a surge of 100 patients due to a mass casualty incident.

Supplies and equipment for each capability (Exam, PPE, Wound Care, IV, Orthopedics, etc.) are intuitively organized within Upright Medical Organizers. Required capabilities for each triage category are then mobilized within color-coded Equipment Chests.

VA Preparedness Benefits

EMCAP Capability: *Expanded Patient Triage, Evaluation and Treatment*
• Intuitive organization
• Comprehensive labeling
• Minimal footprint
• Deploys and establishes in minutes
• Sustainable (SmartBook™ included)

Easy to store, sustain, deploy & operate!

MedKits

VeriCor MedKits are the most compact and economical surge response available. Designed around one care capability, they are ideal for Emergency Treatment Areas and patient surge.

MedKits feature the distinctive Upright Medical Organizer (UMO) with zippered, transparent pouches for easy product recognition and efficient care.

MedKits available:
• **Airway Management**
• **Examination**
• **Intravenous Therapy**
• **Medication Administration**
• **Orthopedics**
• **Staff PPE**
          + 5 more!

VA Preparedness Benefits

EMCAP Capability: *Expanded Treatment During Surge*
• Pre-packaged and labeled
• Highly mobile
• Small footprint
• Rapid recognition for just-in-time training
• Sustainable (SmartBook™ included)

or

Stand & choice of casing included.

3

Mobile Incident Command

Support Module available

Hospital Incident Command Center

VA Preparedness Benefits

EMCAP Capability: *EOC Activation and Incident Management*
- Wired for electrical, CAT 5 & telephone
- Computer/tablet mount
- Two command boards
- Shelves have built-in surge protectors
- Complimentary labeling and choice of color

The Hospital Incident Command Center is ready for immediate deployment. Store vital communications and computing equipment in this mobile EOC.

Simplify command, control & communications!

Response Trailers

Respond and coordinate EOC activation and incident management. A VeriCor Mobile EOC can also be used to store/deploy response assets.

VA Preparedness Benefits

EMCAP Capability: *EOC Activation and Incident Management*
- Independent power generation
- Environmental control
- Break/billeting area
- Tailored to meet VA needs

5

Pan Flu Cache Conversion

Turn pallets of boxes into an organized system ready for immediate deployment. VeriCor converts difficult to manage Pan-Flu Cache inventories into Response-Friendly™ Systems that are compact, organized, rapidly deployable and simple to maintain.

VA Preparedness Benefits

EMCAP Capability: *Documented Inventory of Resources and Assets*
- Intuitive, re-organization of supplies
- Casing mobilizes all assets
- Reduced footprint
- Reduction of management hours
- SmartBook™ documents inventory

Current Pan-Flu Cache Problem

- Do you know what items are in the cache?
- Are supplies expired?
- Have items been recalled by the FDA?
- Have components been damaged?
- Is the cache taking up unnecessary space?
- Is the cache ready for an audit?
- Is the cache ready to respond?

Before

Reduce asset management hours & document the complete inventory!

After

The SmartBook™

Documents the Pan Flu Cache System with inventory:
- Descriptions and quantities
- Manufacturers and locations
- Lot numbers and serial numbers
- Expiration dates and storage parameters
- Material Safety Data Sheets

Digital files of the SmartBook™ are provided.
